

# Indian River Lagoon Report Card Workshop

Palm Bay, FL

## Objectives

- Complete system conceptualization of features, processes, values, and threats in the Indian River Lagoon.
- Develop a conceptual diagram that illustrates these key elements, and which will be the basis of a conceptual analysis framework.
- Discuss potential indicators, thresholds, and available data that supports the chosen indicators.
- Storyboard 4-page workshop newsletter that illustrates the proposed framework for the IRL report card.

## Outcomes

- Comprehensive understanding of the Indian River Lagoon system, which is a necessary first step to determining appropriate indicators.
- Consensus of report card framework and scope.
- Clarified thinking and two-way communication between the IAN staff, IRL data providers, and Marine Resource Council personnel.

## Thursday, January 21, 2015

- 9:30 Welcome and introductions  
Goals and topic of report card product
- Geographic extent and subregions
